

Post-quantum

GOTTA BREAK 'EM ALL !

Lyrics by: Léo Ducas and Jessika Vezian.
Guitar: Peter Schwabe
Lead vocalist: Chloe Martindale

Asiacrypt Rump Session,
4th December 2018

I wanna be the very best
Of the cryptanalysts
To break them all is my real test
And sorry to the NIST

Fig 1.: DRS

All the qubits can be set up
In superposition
Algorithms must now rise up
Quantum evolution ...

Fig 2.: Guess Again

Chorus – I

Post-quantum !
gotta break them all
(except maybe my own)
I know its my destiny

Post-quantum !
Ooooooh your my best friend
In a world we must defend

Fig 3.: Cryptanalyst

Chorus – II

Post-quantum!
gotta break them all

(except maybe Kyber)

Our knowledge will pull us through
You break me and I break you
Post-quantum!

gotta break them all
gotta break them all

Yeah !

Fig 4.: NIST

Every protocol along the way
With daring I will hack
I will program every day
To claim the best attack

Fig 5.: Compact-LWE

Submit with me, the proof is tight,
There's no better scheme,
Against all, we'll win the fight
And standardize our dream !

Fig 6.: WalnutDSA™

Chorus – I

Post-quantum !
gotta break them all
(except maybe my own)
I know its my destiny

Post-quantum !
Ooooooh your my best friend

In a world we must defend

Fig 3.: Cryptanalyst

Chorus – II

Post-quantum!

gotta break them all

(except maybe Kyber)

Our knowledge will pull us through

You break me and I break you

Post-quantum!

gotta break them all

gotta break them all

Post-quantum!

Fig 4.: NIST
